## INDUSTRY - card columns 12-14

Source: "Standard Industrial Classification Manual"  
The "Manual" format: Manufacturing is given preference over wholesale, wholesale is given preference over retail. Other industries are listed. For a clearer picture of a company's product, refer to "Thomas Register, 1962 Edition".

Industry given:

Code the name of the product handled by the employer and the manner in which it is handled.

## EXAMPLES:

<u>Industry</u>	<u>Code</u>
Department Stores	531
Wholesale Distributors of Crude Oil	509
Mfg. Wood household furniture	251
Atomic Energy	28X
Missile Sites	37X

Industry not given:

Code "RRR" in columns 12-14 when the industry is not given on the petition.

Note: Use "Warehouse" code only in those instances when the industry is WAREHOUSE, not in those cases in which a warehouse is part of a Department Store, Food Market, etc. When the warehouse is attached to a Department Store, for example, code "Dept. Store".

**ADDRESS OF COMPANY - State - card columns 15-16  
County - card columns 17-19**

Document will give the city and the state in which the company is located. Check the "Geographical Location Codes Manual" for the county in which the city is situated and code appropriate county and state. If the city is not listed in the "Geographical Location Codes Manual", consult the "Directory of Post Offices" for the county. After locating, refer back to the "Manual" for the appropriate county code.

**Single Plant Address**

	15-16	17-19
Example:	State	County
New York, N.Y.	31	061

**Two or more cities in same county and same state**

	State	County
Example: Chariot, Cincinnati, Ohio	34	061

**Two or more cities in same state but different counties**

Code the county of the first city on the petition.  
Example: Decatur & Douglas, Ga.                      State     County  
    10            089

**Two or more cities in different states but within same Region**

Determine which city is nearest to the Regional Office and code the state and county in which it is situated.

	State	County
Example: Chicago, Ill. & Madison, Wisc.	12	031

**City Location with county unknown**

If county code is not found in "Geographical Location Codes Manual" code county "RRR".

	State	County
Example: Mission, Miss.	23	RRR

1. CHIPS TC Consolidations File:	1. Consolidation Code 2. Type of Severance 3. Severance Code	See attachment with header "CONSOLIDATIONS" Notes: The attached codes are an excerpt from an original code book that was compiled before the migration of the CHIPS system to a mainframe environment. The data at the National Archive is from 1984-1999. Most of the staff that was directly responsible for the implementation and processes of CHIPS are either no longer with the agency or did not participate in carrying out the processes for several years past. From some analysis and inquiry, it has been established that some codes remained the same while other historical codes were changed. It has been concluded that most numeric codes remained the same while alphabetic and over-punch codes were changed. Other than what was given to the National Archive at the time the CHIPS file was archived, this attached document is the only documentation that NLRB has found at this time.
CHIPS TC FORM 1 File:	1. Type of Disposition 2. Administrative Law Judge Disposition 3. Remedy	The disposition and remedy field seem to come from the old Closed Case Report. See attachment with header "Regional Office Closed Case Report." Please check the "disposition codes" and compare them to the "Type of Closing" codes listed on the "Closed Case Report." For the "Remedy Codes" please compare the codes in the file to the codes listed on the Closed Case Report to see if the codes are the same.
CHIPS TC FORM 2 File:	1. Type of Decision 2. Dispositions of Allegations 3. Remedy 4. Board Members 5. Board Disposition Allegations	See attachment with header "Board Decision and Order." Notes: See the notes above under CHIPS TC Consolidations. The notes above also apply to the documentation given for the field items listed to the left. It should also be noted that not all Board Decisions were recorded in the CHIPS database. At best the CHIPS database has a record of Board "Contested" or "Published Decisions" but does not have unpublished Board Decisions coded. Information with regard to the Board Members panel is inconsistent and most of information in this field should be blank for some of the years. The information was collected within a different division of the agency and it was not readily available for input into the CHIPS system. The same applies to allegations. If data does exist in the field it would be from the regional offices and not from the source users since the data was not readily available for input into the CHIPS systems.

Response to Brett [Abrams@nara.gov](mailto:Abrams@nara.gov) re: Tuesday, September 06, 2005, inquiry via e-mail message to Albert Hymes.

CHIPS TC FORM 4 File	<ol style="list-style-type: none"> <li>1. Stage of Last Action</li> <li>2. Type Recommended</li> <li>3. Supreme Court Ruling</li> <li>4. Type of Supreme Court Decision</li> <li>5. Stage Back Pay Specs</li> <li>6. Type Supplemental Board Decision</li> </ol>	See the attachment under header "Referral to Supreme Court." See notes above under CHIPS TC Consolidations. The notes above also apply to the documentation provided for the field items listed to the left. In analyzing the documentation found, the C Formal 4 file was initiated when an NLRB case was referred to the Supreme Court. There should be some data in the named fields to the left but the fields probably have inconsistent data in that the information was not readily available for input into the CHIPS system. Information in these fields was gathered from other resources rather than the originating source.
CHIPS TC TRAILER	<ol style="list-style-type: none"> <li>1. Remedy</li> </ol>	See the attachment under header "Regional Office Closed Case Report." Under the column titled, B. Other Remedies Calling for Affirmative Action is a list of remedy codes. If other codes exist in this field besides the ones listed on the sheet, information gathered from other resources has indicated that the individual codes were added together as binary codes in order to form one code for two or more remedies. For example, if the remedy of a case was 01 – Post Notice and 04- Disestablish Union, the code in the field would be 05.

In addition, attached is two-page document with the header, "Form NLRB 4631" that shows a list of "C" Case Documents and "R" Case Documents. This document may be of some use to help identify proceedings in "C" cases and "R" Cases and to help identify formal and informal proceedings in "C" cases.

Last, attached is a "Case Handling Information Processing System Codes and Descriptions" manual developed by Garrett Hutsko, the NLRB staff member responsible for compiling the CHIPS database sent to the National Archives. This code and description manual does exist as an electronic file whereas the remaining documents sent along with this request have been xeroxed from manual resources.<sup>1</sup>

## CONSOLIDATIONS

### Types of cases in a consolidation -

#### A. Key Case

In Mixed Group / a consolidation comprised of different types of cases/. The key case in a mixed group is found by arranging the cases alphabetically according to type of case and then selecting the lowest numbered case in the first alphabetical group.

Example - 2-RC-3, 2-RC-4, 2-RC-5, 2-RD-1, 2-RM-6  
The key case is 2-RC-3

In Unmixed Group /a consolidation comprised of similar types of cases/. The key case in an unmixed group is the lowest numbered case.

Example - 8-RC-4, 8-RC-7, 8-RC-12  
The key case is 8-RC-4

#### B. Subordinate Key Case

A subordinate key case is found only in a mixed consolidation. It is the lowest numbered case in each respective type of case other than the key case type. In Example for "Mixed Group", the subordinate key cases are 2-RD-1, 2-RM-6

#### C. Subordinate Cases

All other cases in mixed or unmixed consolidations which are not considered as either the key case or the subordinate key case are the subordinate cases. In Example "Mixed" - subordinate cases are 2-RC-4, 2-RC-5. Example "Unmixed", 8-RC-7, 8-RC-12 are subordinates.

In consolidated cases where key case is closed, pending case becomes key and original key case becomes subordinate case. (Except in cases having decision - then follow instructions following.)

## BOARD DECISION AND ORDER

Source: Copy of Decision forwarded by Division of Information.

It is important that the analyst read the entire Decision in order to compare the Board rulings on the allegations and individuals with the allegations and the individuals in the Trial Examiner Decision and the Complaint.

Contested Decision: Case in which exceptions were filed to TDX and the Board completely reviewed the record, exceptions and decision resulting in their own rulings and order. Contested Decision follows a Stipulated Record also.

Stipulated Decision: Approval by the Board of a Formal Stipulated Agreement entered into by the parties.

Automatic Decision: Case in which no exceptions were filed (within 20 day period) and the Board formally adopted the Trial Examiner's findings, conclusions and recommended order.

**Single Case:** Determine the nature of the Board's Order with respect to each of the 8(a)3's, 4's and 8(b)2's and make appropriate entries on the lines for number of reinstatements: with or without backpay, number receiving backpay only and number dismissed.

**continued**

**BOARD DECISION - continued**

**CODE FA-2**

The upholding of any part of an 8(a)(3), etc. charge with regard to an individual is to take precedence in entry of numerical remedy over the dismissal of part of the charge with respect to the individual.

EXAMPLE: An employee ordered to get backpay for a layoff but whose charge was dismissed as to his being fired, is to be entered as "Mo. Rec. B.P. only" and as an 8(a)3 dismissed.

**Consolidated Cases:** Enter on each case in the group the number of 8(a)3's, 4's, 8(b)2's upheld or dismissed in the Decision that pertain to each case alone (if information can be determined on a case by case basis). If the employees had not been identified for each case when the complaint was entered, enter all 8(a)3's, etc. on the key case and sub-key case. On each subordinate case - enter "See (insert number of key case or sub-key case)"

**CODING NUMERICAL REMEDY** - code number in two digits. If number exceeds 99, code "XX" in card columns. If remedies are not applicable to the case, code "00". (Be not code 8(a)4's - enter information only.)

**Non-Numerical Remedy - card columns 60-61**

Read and extract from the affirmative provisions of the Board's order the nature of the remedial action ordered to be taken by the respondent. Normally there will be a specific remedy to cover each allegation upheld. When more than one remedy is ordered, add the applicable codes and enter the total. (Write out fully on the back of card any remedy that appears to be unusual.) CODES and REMEDIAL ACTIONS follow on next page.
